Odds

-
5. The odds of being the 25th caller depend on the number of attempted calls being made into the studio at the time the 25th caller is solicited. Calls are taken in the order in which they are received into the studio. The odds of a selected caller selecting two (2) matching squares are 1 in 30 or better (depending on how many other squares were previously selected and whether a particular caller has knowledge of the prizes associated with those squares).
